## Shaping the New Generation of Free Market

On Wowoo BC, exhibitors are able to provide all kinds of commodities even personal skills and real estate, which are not available on existing free markets. Furthermore, a completely new value beyond original value will be generated and circulated by issuing tokens pegged with products simultaneously on our free market. In addition, you are able to select and deposit not only cryptocurrencies but also fiat currencies. Thus, the service is available for wide range of people from whom do not have a bank account to whom have multi-currency savings account.

### POINT 1

#### Small intermediate exploitation

A noticeable issue of existing free markets is high amount of intermediate exploitation. Wowoo BC minimized the cost of fee.

### POINT 2

#### Added value for anything

You are able to exhibit or trade not only commodities but also your own skills and real estate, which are not available on existing free markets.

### POINT 3

#### Creation of new value

Create new generation of economy beyond existing markets by utilizing blockchain technology and virtualizing various kinds of value (token issuance).
