# Wowoo

## How much is your Goodwill worth?

Have you ever felt unappreciated or had your hard work and passion go unnoticed? At Wowoo, we value your hard work and passion! Wowoo's Token Economy gives you peace of mind, which is often underestimated in our society. People with ideas or services that contribute to our society can directly connect with people who support your project on our platform; and they, in turn, help spread the circle of gratitude. Users can support their favorite projects across the SNS and be rewarded in Tokens, which could then be used for different services.

**Wowoo is a Blockchain community,  
where people's goodwill turns into wealth.**

# Our Products

## Tokens

Wowbit (WWB) acts as a token which embodies the foundation of the Wowoo project, which is to express one's gratitude.

Wowbit Classic (WCC) is a utility token to use alternate blockchain platform from WWB to build tokens and smart contracts on the platform.

## Platform

Wowoo Platform is a system which supports consulting of ICO/STO projects as well as allowing users to manage their accounts across different SNS channels.

Wowoo Exchange has the best-in-class, asset security and is committed to following all regulations. We collaborate with regulators and stakeholders to better understand and shape the future of digital asset standards. First-time users as well as seasoned traders can trade cryptocurrencies with confidence using our intuitive and customizable user interface.

## Wallet

Wowoo Wallet, a private multi-asset mobile wallet, is an application for Android and iOS designed to conveniently yet securely store NEP-5 tokens, including WWB and WWX, along with some of the major cryptocurrencies such as BTC, ETH, and other ERC20 tokens in one's hand.

## Market

Wowoo BC is a new Free-Market P2P trading service. It allows the trade of daily commodities like food or cloths as well as intangible assets such as time, ideas or consults. It can include assets that require contracts like real estate or copyrights. Cryptocurrency owners can issue tokens that interact with their products and trade a whole new value across the globe.
